PROPOSED CHANGE:

ADD A STATUS OF "NON-OPERATING HISTORICAL" TO THE PICK LIST.

JUSTIFICATION:

THE CURRENT STATUS "PICK LIST" DOES NOT REFLECT THE PREDOMINANT PHYSICAL/OPERATION STATUS OF A NON-OPERATING ASSET THAT IS CONSIDERED TO BE OF HISTORICAL SIGNIFICANCE. THESE TYPES OF STRUCTURES CAN NOT BE D&D'D. IN ORDER TO CLASSIFY THE STATUS OF HISTORICAL STRUCTURES APPROPRIATELY, A NEW STATUS IS REQUIRED. WE RECOMMEND THE ESTABLISHMENT OF A NEW STATUS TITLED "NON-OPEARATING HISTORICAL".

Historic Properties Policy and Legislation

In compliance with the National Historic Preservation Act (NHPA) of 1966, Laboratory buildings and structures built between 1942 and 1963, or designated in the Site Wide Environmental Impact Statement (SWEIS) as key facilities, must be reviewed for historical significance. In addition, the most significant examples are to be evaluated for preservation and adaptive reuse potential. The DOE's Office of History and Heritage Resources has also issued guidance over the last several years regarding historic facilities at DOE/NNSA sites. The DOE has identified the most significant remaining Manhattan Project properties at DOE/NNSA sites across the complex and has formally listed them as "Signature Facilities." The Office of History and Heritage Resources has recently requested that each DOE/NNSA site nominate significant Cold War properties for inclusion on DOE's Cold War Signature Facility list. In compliance with the current administration's Preserve America Executive Order, DOE/NNSA site offices are also identifying other historic properties that would be suitable for "heritage tourism" activities as outlined in the executive order.
