Request for Change
Change Request #:12-10**

Requestor Name:	Dennis DuPont	Date:	6-14-12	Affiliation:	
Email Address:	ddupont@lm.doe.gov	Phone No:	970-248-6722	DOE	
Man Hours to Implement:	4 Hours			Contractor	X
Proposed Change:	<p>Remove the parenthetical word (security) from the Usage Code 2429 Fencing (Security) to allow for a more accurate reflection of all fencing.</p> <p>Use the notes section to identify a specific type of fencing if not included in your CAS.</p>				
Justification:	<p>The 'security' identifier currently attached to Usage Code 2429 Fencing implies that the fencing entered into FIMS is a 'security' fence. Security fence (as defined on a typical fencing vendors website):</p> <p>"Security fencing system usually combines wire mesh fencing fabrics or panels and the fencing toppings like barbed wire, concertina wire or spikes topping together."</p> <p>Typical fencing identified in fencing is generally chain-linked or single-strand barbed.</p>				
Please Do Not Type Below This Line					
Remarks by FAC:	<p>The intent is that this usage code (2429) would apply to all fencing. Appendix C of the FIMS User's Guide will be updated to reflect the change in definition for usage code 2429.</p> <p>FAC Recommended – July 18, 2012</p> <p>FDDC Approved – January 16, 2013</p> <p>Implemented into FIMS on January 31, 2013</p>
